## FOREWORD

This catalog includes only a small number of the many species and varieties of alpine and rock plants which we can supply, and, in case you do not find the plants you desire listed, kindly write us your requirements.

The following list of plants have been tested for hardiness. All our plants are thoroughly acclimatized in this section before being sent to the customer. We have found after they become accustomed to our climatic conditions in New England that their growth and cultivation present very few difficulties or losses when transplanted in other gardens.

We have a trained group of men, who are thoroughly experienced in the construction of rock gardens, building walls and pools. Advice given freely on these subjects.

We strive to the best of our knowledge and ability to have our plants true to name, but cannot be held responsible in case mistakes sometimes occur.

## TERMS OF SALE

Sufficient money must be added to order to cover cost of postage.

Our terms are strictly cash, but will ship C. O. D. provided 25% of the amount of the order is remitted. We do not fill orders by mail for less than \$5.00.

Our plants are strong and healthy, both potted and field grown stock. Where two prices are mentioned, the last is quoted for specimen size plants.

We pack with great care and ship only good healthy stock, but cannot be liable for cases of failure due to transportation or other causes.

## HARDY ROCK AND ALPINE PLANTS

### CHOICE AND FINER VARIETIES

<b>ABELIA GRANDIFLORA</b> — Lovely dwarf evergreen shrub. Pale pink flowers all summer .....	1.00—1.50
<b>ACAENA, Carpeter</b> 1 in.	
<b>Argenta.</b> Silvery carpeter .....	.35
<b>Nova Zealandie,</b> the smallest and most desirable. Bronzy leaves .....	.40
<b>ACANTHOLIMON</b>	
<b>Glumaceum;</b> Green spiny mats; rose spikes; $\frac{3}{4}$ in. ....	.50
<b>ACANTHOPHYLLUM</b>	
<b>Spinosum;</b> feathery, blooms in Aug. ..	.65
<b>ACHILLEA ARGENTEA</b>	
White blooms. Silvery foliage ....	.40
<b>AETHIONEMA</b>	
<b>Grandiflorum.</b> Blue-grey foliage, pink blossoms .....	.50
<b>Pulchellum.</b> Similar to above with blooms of more lavender hue. June-July .....	.50—1.00
<b>Schistosum.</b> Choice little shrubby type with pale pink flowers .....	.50—1.00
<b>Warley Hybrid.</b> This comes from original imported stock from England. Choice rose blooms for long period .....	.50—1.00
<b>AJUGA</b>	
<b>Crispus.</b> Bronzy foliage; blue flowers .....	.50
<b>Tottenhami.</b> Reddish foliage; blue flowers .....	.50
<b>ALLIUM</b>	
<b>Ostrowskianum.</b> Lovely rose allium from Turkestan. Large bloom heads .....	Dozen 7.50
<b>Thibeticum.</b> Dwarf. Lilac-mauve, early summer, rare sype .....	Dozen 7.50
<b>Stellatum.</b> Scarce onion from Northwest, fine rose blossoms ...	Dozen 7.50
<b>ALYSSUM</b>	
<b>Alpestre.</b> Quite prostrate with minute yellow flowers, very desirable grey foliage .....	.50

<b>Dalmoraei.</b> Charming little bi-color broom. Pink and carmine combination .....	1.25
<b>Purpureus.</b> (Purple broom) Lovely arching sprays of deep lavender in May .....	1.25
<b>Prostrata.</b> Complete prostrate broom. Tiny blossoms. ....	.75
<b>Pilosa.</b> Dainty little broom. Tiny flowers for long period .....	1.50
<b>Schipkaensis.</b> Dainty dwarf bushlets, with pure white blooms .....	1.25
<b>Uralensis.</b> Medium shrub for hot location .....	1.25

**DAPHNE CNEORUM**—Very fragrant  
pink blossoms ..... .75 to 1.50

**DELPHINIUM**

**Cashmeriana**; Very choice dwarf from  
Tibet ..... .75  
**Chinensis**; Very dwarf; Blue ..... .50  
**Tatsienense**; Fine blue type from  
China ..... .75  
**Nudicaule**; Bright scarlet, 12 in. .... .50

**DOUGLASIA LAEVIGATA**

Green Rosettes, rosy blooms .. 1.00

**DIANTHUS**

**Alpinus**; Dwarf large rosy flowers.. .50  
**Alwoodii Alpina**. Deep carmine rose  
with dark eye. Spicy fragrance. 5  
inches ..... .35  
**Alwoodii Mary**. Pale pink with deep  
carmine eye ..... .35  
**Alwoodii Her Majesty**. Large double  
white. Particularly fragrant. Won-  
derful bloomer ..... .35  
**Alwoodii Multiflorus roseus**. Bright  
double rose flowers. Blooms all  
summer ..... .35  
**Alpinus Carmineus**. Deep crimson,  
beautiful large blooms. 2 inches  
high. Deep carmine eye ..... .50  
**Aridus**. Dianthus with yellow blos-  
soms. Decided departure, unique .. .50  
**Arvenensis**. Continental form of the  
dainty Cheddar pink. Very fragrant  
blooms on grey green mats. Choice  
little affair ..... .35  
**Beatrix**. Lovely double pink flowers. 9  
inches. New ..... .50  
**Caesius**; fringed rosy flowers ..... .35  
**Callizonus**; Best of all Alpine pinks;  
large pink flowers ..... .75  
**Deltoides Brilliant** ..... .35  
**Freynii**. Bluish grey cushions, with  
daintiest tiny pinks, sometimes pink  
and sometimes white. Choice mor-  
aine subject. 4 inches ..... .50  
**Squarrosus**. Dainty white feathery  
pinks, mistiest charm. 4 inches, all  
summer long ..... .50  
**Superba nana**; Fringy soft lavender  
flowers ..... .50  
**Gladys Cranfield**. Rich pink with dark  
eye. Choice ..... .35  
**Neglectus**; Pink flowers; very lovely .50  
**Winteri**; New. Double yellow blos-  
soms. Very fine ..... .75  
**Winteri**; Bright carmine double flow-  
ers ..... .75  
**Plumarius hybrids**; all good colors,  
fragrant ..... .35

**DORONICUM CAUCASICUM**

Showy yellow flowers ..... .50

**DRABA**

**Aizoides**. Rosettes of tightly clustered  
foliage, yellow flowers, very fine .35 to .75  
**D. Hirta**; grey foliage white flowers .50

**DRYAS**

- Octopetala**, Dwarf shrublet; Large anemone-like sunder white blooms .40 to .75  
**Sundermani**, Larger, Blossoms slightly on the yellow side ..... .75

**ERICA**

- Carnea rosea** Dec. to Mar. .... .50 to .75  
**Vagans**, Pink flowers. June .... .50— .75

**ERIGERON**

- Alpinus**; Soft pink blossoms ..... .50  
**Caucasicus** ..... .40

**ERINUS ALPINUS**

- Rosy flowers ..... .40

**ERODIUM**

- Amanum**; grey green foliage; white blooms ..... .50  
**Cheilanthisfolia**; ferny foliage; blush white flowers ..... 1.00  
**Chrysantha**; Choice yellow blossoms .75

**EUNONYMUS RADICANS**

- Small leaf evergreen vine ..... .75

**EPIMEDIUM**

- Niveum**; Beautiful white flowers .... .35  
**Sulphureum**, Dwarf, pale yellow flowers, bronze foliage ..... .75  
**Violaceum**; Fine lavender blooms ... .75

**GENTIANA**

- Acaulis**; Large blue trumpet shaped flowers; Spring and Autumn blooms ..... 1.00  
**Baicalense**; Similar to Purdomi. Produces heads of rich blue in August. 8 inches ..... .75 to 1.25

**Lagodechiana**; Low growing gentian of much charm, similar to Septemfida ..... 1.00  
**Prezwalsky**; Lovely flowers, white speckled, intense sapphire blue. Cluster form ..... 1.00  
**Purdomi**; Similar in foliage, with very deep cobalt blue trumpets. This is a choice gentian ..... 1.25  
**Pyrennaica**; Lovely large blue trumpets ..... 1.25  
**Newberryi**; Choice little Western American gentian on order of Septemfida, foliage similar to Acaulis; Deep steel blue cups ..... 1.00  
**Septemfida**; Easy cultivation. Fine blue flowers ..... 1.00—1.25  
**Sceptrum**; Slender stems with cluster of lovely blue-purple trumpets.. .75—1.25  
**Sino-ornata**; Chinese gentian; Very fine ..... 1.00—1.50

**GERANIUM**

- Argenteum**; A gem; Silvery foliage; soft pink blooms ..... 1.00  
**Traversi**; Grey green foliage; clear pink blossoms ..... 1.00

**GERANIUM** (continued)

<b>Sanguineum; Lancastriense;</b> Low growing prostrate with lovely pink blossoms .....	.35
<b>Sanguineum Rosea;</b> Deep rose form of above .....	.35
<b>Pylzowianum</b> (North Thibet) Dainty little sprite, with nodding rose-pink blossoms. Lovely in moraine. June-August .....	.50
<b>Walliachanum;</b> Blue veined purple. Good ground cover, or charming for rock walls in warm location. July-October .....	.50

**GEUM**

<b>Borisii.</b> Bright orange scarlet flowers on short branching stems .....	.50
<b>Heldrichii.</b> Grey-green, orange blossoms .....	.50
<b>Montanum.</b> Choice little yellow geum, interesting seed puffs .....	.50
<b>Fire Opal.</b> Beautiful flame colour; large flowers. May-July .....	.75

**HEUCHERA**

<b>Hybrids.</b> Larger flowers than the type .....	.50
<b>La Perie.</b> New red coral ball .....	.50
<b>Pleu de Feu.</b> Very bright red. Choice .....	.50
<b>Rosamonde.</b> New delightful shade of bright pink .....	.50
<b>Sanguineum splendens.</b> Mixed from choice hand polinized seedlings ..	.35

**HELIANTHEMUM**

<b>Praecox;</b> Lovely pink blooms .....	.40
<b>Pilosum</b> .....	.50
<b>Wenlock primrose</b> .....	.40
<b>Speciosa salmon</b> .....	.40
<b>Speciosa.</b> Orange. Large leafed and large flowered .....	.40
<b>Double yellow.</b> Dainty little double sort .....	.40
<b>Double orange.</b> Semi double, pale orange .....	.35
<b>Wenlock Pink</b> .....	.40
<b>Wisley primrose.</b> Grey foliage, clear yellow blooms .....	.35
<b>Ben Ledi.</b> Beautiful crimson lake flowers, handsome foliage .....	.40
<b>Ben Nevis.</b> Good yellow with orange center .....	.40
<b>The Bride.</b> Grey foliage and large white blooms .....	.35

**HUTCHINSIA ALPINA**

Close little mats of green. White flowers .....	.50
---	-----

**HYPERICUM**

<b>Olympicum;</b> One of the finest .....	.60
<b>Polyphyllum;</b> Rare; Yellow flowers .....	.60

**IRIS**

<b>Reticulata</b> .....	.75
<b>Western Native Iris, Tenax Tenuis, Gormani, Chrysophylla, Bracteata, Missouriensis, etc.</b> .....	each .50
<b>Arenaria.</b> Little golden iris. This is rare and very choice .....	1.25

**IRIS** (continued)

<b>Bulleyana.</b> From the Himalayas. Blue brown, with yellow pencillings. Nice near pool .....	.50
<b>Chrysographes.</b> 18 inches. Another iris from Asia. Deep violet, golden veined flowers. Moisture in sun ....	1.00

Adenophylla. Beautiful Chilean mountain plant from a flat corn, it produces most attractive grey-green foliage, and huge goblets of lilac pink .....	1.00
Bowiei (purpurata) South African specie with purple flowers on six inch stems. Choice .....	1.00
Deipi. Handsome rose blooming type. Splendid doer .....	1.00

**PENTSTEMON**

Acuminatus. Grey foliage, gentian blue flowers .....	.75
Barrettiae. Choice native of Oregon. Silvered foliage; snapdragons of lavender .....	.60
Bridgesii. Splendid scarlet type. Sunny location .....	.75
Glabra. Large leafed, deep purple blooms .....	.50
Heterophyllus. Choice violet-purple, splendid for rock walls .....	.50
Mensiesii. Washington evergreen. Dainty foliage .....	.35
Newberyii. Lovely deep pink flowers	.50

**PENTSTEMON** (continued)

<b>Procerua.</b> Gentian blue flowers on ample stems .....	.40
<b>Richardsoni.</b> Spreading branches, poor soil, lovely rose colored blooms ..	.50
<b>Rupicola.</b> Choicest little pentstemon, grey green foliage. Lovely large snap-dragons of intense cherry-red coloring. 2 inches .....	.50
<b>Rupicola Hybrid.</b> Choice hybrid of above. Rose flowers, more lush foliage. Fine .....	.50
<b>Purpurea-Coerulus.</b> Native of Oregon. Purple flowers coming late .....	.50
<b>Rattani Minor.</b> Dwarf heads of blue-lavender .....	.50
<b>Mixed Idaho Pentstemons.</b> Unnamed specimens. Very beautiful types among them. All colors .....	.60
<b>Scouleri Lyalli.</b> Similar to above, finer foliage, larger blossoms .....	.75
<b>Scouleri Alba.</b> Choice white form of the above .....	.75

**PHLOX**

<b>Adsurgens.</b> Very fine; pink blooms ..	.75
<b>Amoena;</b> Pink .....	.35
<b>Diffusa;</b> Mauve flowers .....	.50
<b>Douglasii;</b> Lavender .....	.50
<b>Nivalis;</b> White .....	.35
<b>G. F. Wilson;</b> Lovely soft shade of lavender .....	.50
<b>Stokes Variety;</b> Deep lavender .....	1.00

**PLUMBAGO**

<b>Larpentae;</b> Blue flowers for autumn ..	.40
<b>Willmottae;</b> Fine form of above ....	.75

**POLYGONUM**

<b>Vaccinifolium.</b> Trailer; Pink blossoms in autumn .....	1.00
--	------

**POTENTILLA**

<b>Cinerea.</b> Compact grower, for stepping stones; Choice dainty bloom ..	.50
<b>Nitida;</b> Very choice; Rose pink blossoms .....	1.00
<b>Nana, argentea;</b> Prostrate habit; rare ..	1.00
<b>Vilmoriana;</b> shrublet; large flowers ..	1.25

**PRIMULA**

<b>Auriculas;</b> Choice alpine varieties, mixed colors .....	.50
<b>Beesiana;</b> Bog plant; purple blossoms; 2 ft. ....	.75
<b>Bulleyana;</b> For bog planting; buff orange .....	.75
<b>Capitata;</b> Purple; fine .....	.75
<b>Chionantha;</b> For damp situation; creamy white flowers .....	1.25
<b>Cockburniana;</b> Coppery orange flowers. 14 in. ....	1.00
<b>Cashmiriana;</b> Deep violet leads .....	.75
<b>Denticulata, cashmiriana;</b> choice strain, rich colours .....	.75
<b>Florindae;</b> Large type, effective umbels of yellow flowers .....	1.25
<b>Glycosma;</b> Deep violet; choice .....	1.25
<b>Geraldiana;</b> Dwarf; lovely purple blossoms .....	1.25

**PRIMULA (continued)**

<b>Farinosa</b> ; Dainty lilac flowers; 1 ft...	.60
<b>Farinosa Scottica</b> ; Fine form of above .....	.75
<b>Froncosa</b> ; Rosy lilac; fine bloomer..	.50
<b>Involucrata</b> ; Fine white blooms ....	.75
<b>Japonica</b> ; Choice colour .....	.35
<b>Juliae</b> ; Choice little gem; deep purple flowers .....	.60

<b>Rosea grandiflora</b> ; Rose primula; fine	1.25
<b>Secundiflora</b> ; Rich dark red bells; very fine .....	1.25
<b>Yargonensis</b> ; Large pink blooms .....	1.25
<b>Duplex</b> (Hose in Hose) Double ....	.75
<b>Glen Cove</b> ; Large burnt orange flowers .....	.75
<b>Gold Star</b> . One of the best deep yellows .....	.75
<b>Orange Glory</b> ; Fragrant .....	.75
<b>Queen of Heaven</b> ; Lovely blue flowers, 6 in. stems .....	.75
<b>Veris</b> ; Boy blue .....	1.00

**PULMONARIA**

<b>Augustifolia. Azurea</b> . Low growing herbaceous plants with numerous lovely bright blue flowers in earliest springtime .....	.50
<b>Mrs. Moon</b> . Rose colored form of above. Choice .....	.75

**RAMONDIA**

<b>Pyrenaica</b> . Dark green foliage; Fine lavender blooms .....	1.00
<b>Natalie</b> ; Exceeding fine and rare type; lavender .....	1.50
<b>Haberlea. Frederick-Augusti</b> . Fine large flowers, similar to Ramondias .....	1.50
<b>Haberlea. Rodopensis</b> . Lilac lavender flowers speckled with lavender. Very choice .....	1.50

**RANUNCULUS**

<b>Montanus</b> . Large yellow blooms ....	.75
<b>Pumilio</b> ; Very dwarf; large blossoms	1.50

**RHODODENDRON**

Dwarfs for Rock Garden	
<b>Fastigiatum</b> ; 14 in. Lavender blossoms, very fine .....	2.50
<b>Ferrugineum</b> ; Rose flowers .....	1.50
<b>Racemosum</b> ; Pink blooms .....	2.50
<b>Schlippenbachia (Azalea)</b> ; Pink flowers; fine .....	2.00
<b>Yedegawa</b> ; Choice azalea; double lavender blooms .....	2.50

**ROSA**

Folosa, Dwarf white rose; Fine ....	1.25
R. Rouletti; Very dwarf; lovely pink blooms all summer .....	3.00
R. Spinossima; Alpine rose .....	1.25

**SAGINA**

Subulata; White flowers; Fine for ground cover .....	.35
---	-----

**SAPONARIA**

Ocynioides; Mass of pink blooms ..	.35
------------------------------------	-----

**SAXIFRAGA (Saxifragaceae)**—Charming and varied types of plants for the alpine garden and moraine. Many varieties, some mat forming, many encrusted with limy pits on foliage, some mossy types for shade, but all very charming and interesting, these with the sedums and sempervivums, make a nice hobby for a collector. For convenience these are listed, with a few exceptions, in the sections to which they belong. Most of these prefer a light sandy loam with plenty of rock chips and situated in partial shade.

**ENCRUSTED VARIETIES** — These form rosettes of narrow and spatulate shaped leaves, heavily encrusted with lime in most cases, and are extremely ornamental in the rock garden.

Second price is for extra large clumps..

<b>AIZOON</b> —Easy and good, cream blossoms; 4—6 inches May—June .....	\$ .35
<b>AIZOON ROSEA</b> — Similar to above, with rosey blooms .....	.50
<b>AIZOON BALCANA</b> —Incurved rosettes: crimson-speckled flowers of 8 inch stems .....	.50
<b>AIZOON BALDENSIS</b> —Daintiest and smallest encrusted variety; very rare in true form .....	.75—1.25
<b>AIZOON DENSA</b> — Minute rosettes, good spreader .....	.60
<b>AIZOON FLAVESCENS</b> — Yellow blooming type; choice .....	.50
<b>AIZOON LAGRAVEANA</b> —Neat, compact rosettes, making large mats. Ruddy stems, 6 inches high with 4 to 6 wax-like creamy-white flowers .....	.35— .75
<b>AIZOON LAMBERTI</b> —New hybrid of great charm .....	1.00
<b>AIZOON LUTEA</b> —Foliage darker than Flavescens and flowers brighter yellow .....	.75
<b>ALTISSIMA</b> —Large rosettes of blue-grey foliage, ample sprays of white flowers, speckled red .....	1.00

<b>CARTLIAGINEA</b> —Distinct and quite rare. Rigid and sharply pointed leaves. Bluish pink flowers .....	1.00
<b>CHURCHILLII</b> — Very fine Hybrid. Fine silvery leaves, conspicuously beaded .....	1.00
<b>COCHLEARIS</b> — Choice little hummocks of silver. Heavily encrusted and throws up little delightful blossoms .....	.75
<b>COCHLEARIS MINOR</b> — Tiny little domes of silvered rosettes. Graceful red-stemmed sprays of large snow-white flowers, 4 inches high .....	1.00
<b>COCHLEARIS LONGIFOLIA</b> — A beautiful hybrid, of somewhat more robust habit than preceding. Sends up a fine white plume .....	1.25
<b>COTYLEDON CATERHAMENSES</b> —Hybrid of outstanding habit. Stems of two feet or more with branching sprays of white dotted red, giving pink effect .....	1.50
<b>COTYLEDON PYRAMIDALIS</b> —Lovely ample rosettes of grey, large sprays of beautiful white blossoms .....	.50—1.00
<b>CRUSTATA (Incrustata)</b> — Narrow-leaved rosettes, heavily beaded with silver. Worth growing for the handsome cushions it makes .....	.75
<b>DENSA</b> —Resembles Lagraveana, being somewhat more robust .....	.50
<b>ELLIOTT'S SILVER VARIETY</b> — Splendid hybrid with lovely silvered rosettes .....	.50—1.00
<b>ENGLERII</b> —One of the finest of the Encrusted Sax. Long, narrow leaves, heavily encrusted, in large rosettes .....	.75—1.50
<b>GAUDINI</b> —Hybrid between Cotyledon and Aizoon. Leaves have toothed margin .....	.40— .75
<b>HOSTII</b> —Rare species. Beautiful Rosettes of narrow grey leaves .....	.50—1.00
<b>LANTOSCANA SUPERBA</b> — A fine form of Lingulata with long narrow foliage; grey green, filmed with silver, and which curls at edge and end. Arching sprays of white flowers .....	.75—1.25
<b>LINGULATA BELLARDII</b> —Rosettes of pale green, silver beaded leaves very beautiful .....	.50—1.00
<b>LONGIFOLIA</b> —Huge Silvery Rosettes, brush plume 2—3'. "Queen of The Saxifrages" .....	1.25
<b>LONGIFOLIA HYB.</b> — "Lownii" — Foliage resembles that of Hostii, turning a bright red in the Winter; large spikes of white flowers .....	1.50

- MACNABIANA** — Easy and good.  
Heavily encrusted ..... .35—1.00
- LINGULATA LANTOSCANA BEL-  
LARDII**—This is a lovely type,  
very distinct, prefers a little shade.  
..... .50—1.50
- PARADOXA**—A very choice and rare  
Hybrid. Foliage long and very  
narrow, of a sombre iron-grey,  
edged with conspicuous silver bead-  
ing ..... 1.00—1.50
- STENOGLOSSA**—Medium sized roset-  
tes of short leaves, slightly silver  
beaded. An easy doer, making nice  
mats. .... .50
- WAMPOLE'S HYBRID** — Fine large  
rosettes heavily silvered, charming  
flower sprays ..... 1.00—1.50

### KABSCHIA SECTION

This is a mat forming type, to be used  
in moraine, or crevice between two rocks. All  
are early bloomers. Like warm, half sunny  
situation, in gritty soil and leafmold.

- APICULATA**—Mats of spiny foliage,  
primrose yellow blossoms ..... .50—1.00
- APICULATA ALBA**—Nice white form  
of the above ..... .50—1.00
- BORYII**—Compact grey-green cushions  
with large white blooms in early  
Spring. A little gem ..... 1.00—1.50
- BURSERIANA MAGNA** — Glorious  
little plant with choice white blos-  
soms ..... 1.50—2.00
- BURSERIANA CRENATA** — Petals  
beautifully fringed on reddish stems  
..... 1.50—2.00
- BURSERIANA SULPHUREA** — A  
sulphur-yellow form. Rare .... 1.50—2.00
- CAESIA** — Very compact mat-forming  
type with dainty white bloom .. 1.00—1.50
- CHERRY TREES** — new hybrid —  
Charming dark green foliage, yellow  
blooms ..... 1.00—1.50
- ELIZABETHAE**—Small cushions green  
foliage, deep yellow blossoms .... .75—1.50
- FALDONSIDE** — Grey-green foliage,  
yellow blossoms ..... 1.25—2.00
- FERDINAND COBURGI**—Grey-green  
rosettes similar to Elizabethae.  
Deeper yellow blossom. .... .75—1.00
- FREDERICI-AUGUSTI**—Large roset-  
tes on the order of Media, bracts of  
purplish flowers. Choice and rare  
..... 1.50—2.00
- GODSEFFIANA (L. G. Godseff)**—Blue  
grey rosettes with yellow flowers  
..... .75—1.25

- GREISBACHII**—Similar to above, red-dish blooms, interesting, rare .. 1.50—2.00
- HAAGI**—Very dark green foliage with rich golden-yellow flowers ..... .50—1.00
- IRVINGII** — Little hybrid of great beauty, with pink blossoms, one of the very choicest ..... 1.25—2.00
- KYRILLI**—Hybrid after same type as Marginata. Very choice grey mats, with clearest yellow blossoms. Rare ..... 1.50—2.00
- LUTEA-VIRIDIS**—Green mats, yellow blossoms. Dainty ..... .50—1.00
- MARGINATA** — Compact little encrusted rosettes, very dainty little white blossoms ..... .50—1.00
- MARGINATA (Elliott's Variety)**—An improved form of preceding .. 1.00—1.50
- MEDIA**—Large flat rosettes, compact and interesting ..... 1.50—2.00
- MYRA**—New hybrid, very choice deep rose bloom, a departure from the white and yellow forms ..... 1.50—2.00
- OBRISTII** — Blue-grey rosettes and trusses of red-calyxed, white flowers. Rare ..... 1.25—2.00
- PAULINAE**—Beautiful pale yellow sax. One of the new ones ..... 1.50
- PETRASCHII** — Choice little silvery spiny cushions, lovely, sweet scented flowers ..... 1.25—1.50
- SANCTA**—Green foliage, edges often pitted with silvery beading. Bright yellow flowers. Very easy ..... .75—1.25
- SCARDICA** — Splendid new hybrid, grey foliage, white blossoms .. 1.25—2.00
- STRIBYRNI** — Distinct species from Balkans, purple flowers ..... 1.25—2.00
- RIVERSLEA** — Choice new hybrid. Lovely deep cherry-rose blossoms 1.75

### MOSSY SECTION

These form cushions and mossy mats. Are especially nice for place in damp, shady part of rock garden. Like plenty of leafmold, and appreciate an extra mulch in spring and fall.

- BATHONENSIS**—Good bloomer, one of the best of the colored ones. Deep pink ..... .50—1.00
- GUILDFORD'S SEEDLING** — Bright crimson, one of the best ..... .75
- H. S. STOKES**—Bright red ..... .50— .75
- SCHOEN VON RONSDORF** — Deep red verging on crimson ..... .75
- RED ADMIRAL**—The best mossy .75—1.00
- JAMES BREMMER** — Delightful pink mossy ..... .50— .75

**SAXIFRAGE** (continued)

- MOSCHATA, Rhei Superba**—Another nice pink bloomer, and easy .... .50—1.00  
**SIR DOUGLAS HAIG**—Bright red ... .75  
**WALLACEI**—Large white mossy. Very good ..... .50—1.00

**PORYPHRION SECTION**

For moist places in rock garden, all preferring afternoon shade, well to plant north or east exposures.

- OPPOSITIFOLIA SPLENDENS** — This is a very early bloomer with lovely rose-purple blossoms. Rare and choice ..... .75—1.00  
**ALLIONII** — Minute white flowered mossy, likes damp, cool and gritty moraine bed ..... .50— .75  
**BRONCHIALIS** — Similar, large type, prefers shade and moisture .... .50— .75  
**PRIMULOIDES, Elliott's Variety** — Tiny compact London Pride ... .50—1.00

**ROBERTSONIANA SECTION**

This section embraces the well known London Pride and its immediate relatives. They require shady, moist positions and all have attractive green foliage and delicately colored flowers.

- ANDREWSII**—A pretty Hybrid with long, narrow foliage, sharp toothed. White flowers, spotted red, on 8 inch stems ..... .50—1.00  
**CAPILLIPES** — A pretty form of London Pride, green foliage and white flowers speckled pink, on 6 inch stems. Distinct and rare .. .50—1.00  
**CUNEAIFOLIA**—A tiny London Pride, with dainty pink flowers ..... .50—1.00  
**TAYGETEA**—Tiny species with foliage like a Soldanella. Pure white star-shaped flowers. Very rare .. .50— .75  
**UMBROSA (London Pride)** — Dark green foliage and 15 inch sprays of pinkish flowers. Plant with Myosotis Palustris ..... .50—1.00  
**UMBROSA PRIMULOIDES** — Tiny, compact form of preceding with pink flowers on 6 inch stems ..... .50

**SEDUM**

Sun loving plants, excellent for walls, dry banks, stepping stones and moraine. The majority are well worth a place for the low carpets of richly colored fleshy leaves alone. Unless otherwise noted, they bloom during summer months.

- ACRE**—Yellow-flowered evergreen carpeter ..... .35

# CRONAMERE ALPINE NURSERIES

<b>ALTISSIMUM</b> —Branched heads of yellow flowers on 9 inch stems. Fleshy, glaucous foliage .....	.35
<b>ALBUM</b> — Nice little white flowering sedum .....	.35

<b>SPURIUM</b> — Excellent ground-cover. Dense foliage, taking on a bronze coloring Flowers pink or white ..	.35
<b>STENOPETALUM</b> —Foliage glaucous, often flushed dull purple. Flowers yellow .....	.50

### SEMPERVIVUMS

One of the easiest culture and the loveliest effects as far as their carpets and masses of rosettes go; few things in the Rock Garden being as valuable for their flowers as are the Sempervivum for their massed rosettes alone. While they do not need much soil, it must be friable and have some humus in it, consisting of a rich, light loam, some well-rooted manure, a little leaf mold and some coarse sand or crushed rock screenings. Perfect drainage is essential. While the following have been propagated from plants imported from reliable growers in Europe, the names of this family are in such a state of confusion that we hesitate to guarantee all.

<b>ALBERTI</b> —Medium rosettes, incurved, pale green, somewhat hairy. Rose .....	3 for \$ .75
<b>ALBIDUM</b> — Large rosettes, green, tipped red-brown. Whitish ... each	.50
<b>ANGUSTIFOLIUM</b> — Small rosettes, narrow leaves, edged with long, dry hairs. Bright carmine .....	3 for 1.05
